## *The Viral Creep: Elephants and Herpes in Times of Extinction*

Stories of elephant care in times of death and loss introduce the concept of “viral creep”: the ability of a creeping, only partially knowable virus to rearrange relations among people, animals, and objects despite multiple experimental human regimes of elephant care, governance, and organization.

April 12, 2018

4:00-6:00 PM

College Building South 114
